**RESPONDENT ASPEN TECHNOLOGY, INC.'S REVISED MOTION FOR  
IN CAMERA TREATMENT OF CERTAIN TRIAL EXHIBITS**

As a result of the Court's direction<sup>1</sup>, Respondent Aspen Technology, Inc. ("AspenTech") has worked diligently over the past week to significantly narrow the scope of documents for which it seeks *in camera* treatment. The result of this effort has been the elimination entirely of over 550 documents for which AspenTech originally requested complete or partial *in camera* treatment. For many other documents, AspenTech has narrowed its request from complete to partial *in camera* treatment.<sup>2</sup>

Although AspenTech would prefer, for commercial and competitive reasons, not to have its confidential business documents publicly disclosed, AspenTech has limited the group of documents (by volume and specific content) for which it seeks *in camera* treatment to only those pages of documents for which disclosure would cause serious commercial and competitive harm. AspenTech has also shortened the time requested for *in camera* treatment to five years for all documents.

---

<sup>1</sup> In the Matter of Aspen Technology, Inc., Dkt. 9310, *Order on Respondent's Motion For In Camera Treatment of Documents Listed on Parties' Exhibit Lists* (May 5, 2004).

<sup>2</sup> See In the Matter of Aspen Technology, Inc. Dkt. 9310, *Respondent Aspen Technology, Inc.'s Motion for In Camera Treatment of Certain Trial Exhibits* (April 23, 2004).

Attached as Exhibit A is a declaration from Stephen Doyle, Senior Vice President and General Counsel of AspenTech, that provides an explanation about each document (or in some cases the entire document) and each transcript excerpt for which *in camera* treatment is requested. See Declaration Exhibit A-1. For the Court's and Complaint Counsel's convenience, attached as Exhibit B is a list of specific page numbers for this limited set of trial exhibits referenced in Mr. Doyle's declaration.

AspenTech and its counsel stand ready to meet with Complaint Counsel or appear before Your Honor to explain the need for *in camera* treatment in further detail or answer any questions.

### CONCLUSION

For the foregoing reasons, AspenTech respectfully requests that the documents listed in the attached Exhibit B receive *in camera* treatment for five years. A proposed order is attached. Should the Court decide that AspenTech's revised motion and attached declaration is insufficient for the Court to order *in camera* treatment for the documents requested, AspenTech respectfully requests a closed hearing with the Court and Complaint Counsel to review each document.

Date: May 12, 2004

**DECLARATION OF STEPHEN DOYLE IN SUPPORT OF  
RESPONDENT ASPEN TECHNOLOGY, INC.'S MOTION FOR  
IN CAMERA TREATMENT OF CERTAIN TRIAL EXHIBITS**

I, Stephen Doyle, declare and state as follows:

1. I am General Counsel of Aspen Technology, Inc. ("AspenTech"). I am submitting this Declaration in support of AspenTech's *Revised Motion for In Camera Treatment of Certain Trial Exhibits*. This declaration is based on my personal knowledge and on information provided to me at my direction.
  
2. As directed by the Court, AspenTech reviewed each AspenTech document (or portions thereof) and transcript excerpt initially designated for *in camera* treatment. This review was carried out by a number of AspenTech employees and one contract attorney (not counsel-of-record in this case) working under my direction and has taken over 120 person hours to complete. We have taken the Court's direction seriously and have attempted to narrow the list of documents as much as we can consistent with our need to preserve AspenTech's commercially sensitive information. As a result of this review, AspenTech has eliminated over 550 documents for which AspenTech originally requested complete or partial *in camera* treatment.
  
3. We believe each of the remaining exhibits for which AspenTech requests *in camera* treatment contain highly sensitive and confidential commercial information that would cause serious competitive harm should they be disclosed. These documents contain information such as: (i) AspenTech's product roadmaps for active and planned engineering products; (ii) research and development plans containing details about additional functionality, technical specifications, and customer-specific innovations; (iii) strategic business planning documents including current strategic plans regarding the direction and positioning of AspenTech products, current integration plans, and internal financial projections regarding AspenTech's products and business units; (iv) specific pricing plans, internal pricing guidelines, and related customer-specific communications; (v) current sales and marketing plans; (vi) confidential customer-related documents

including contract negotiations and strategies, customer requested innovations for future product releases, detailed deal summaries, and sensitive customer-specific information; and (vii) corporate development activities including sensitive alliance partner discussions and negotiations, and potential acquisition targets.

4. Also as a result of the Court's direction, AspenTech has shortened the time requested for *in camera* treatment to five years for all documents. For instances where AspenTech requested more than five years for a particular document, an explanation is provided for why such information would likely remain sensitive or become more sensitive with the passage of time.
5. AspenTech's practice pertaining to its confidential business records, such as those for which AspenTech is seeking *in camera* treatment, is to maintain the confidentiality of the records and only disclose them to those AspenTech employees, or in some cases specific customers, who need to know. To my knowledge, AspenTech has followed this practice with respect to the exhibits listed in Attachment B (and described more fully below).
6. Attached as Declaration Attachment A-1, AspenTech provides the specific page numbers and describes the content on each page for which *in camera* treatment is requested. In some instances, AspenTech respectfully requests *in camera* treatment for the entire document.
7. In sum, I believe that public disclosure of the confidential documents described in Declaration Attachment A-1 will likely result in serious and substantial injury to AspenTech.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on May 12, 2004

/s/ Stephen Doyle  
Stephen Doyle, Esq.
