NORTHSIDE HOSPITAL, INC. d/b/a NORTHSIDE HOSPITAL – ATLANTA, NORTHSIDE HOSPITAL – CHEROKEE, AND NORTHSIDE HOSPITAL – FORSYTH

# CONSOLIDATED MOTION TO QUASH AND/OR LIMIT SUBPOENAS DUCES TECUM

Pursuant to Section 3.34(c) of the Federal Trade Commission's ("FTC's" or "Commission's") Rules of Practice, 16 C.F.R. § 3.34(c), Northside Hospital, Inc. d/b/a Northside Hospital – Atlanta ("NHA"), Northside Hospital – Cherokee ("NHC"), and Northside Hospital – Forsyth ("NHF") (NHA, NHC, and NHF are collectively referred to as "Northside"), as a non-party to this proceeding, hereby files this Consolidated Motion to Quash and/or Limit the April 26, 2013 Subpoenas *Duces Tecum* issued at the behest of Phoebe Putney Memorial Hospital, Inc., Phoebe Putney Health System, Inc., and the Hospital Authority of Albany-Dougherty County (collectively "Respondents"), copies of which are attached hereto as <u>Attachment A</u> (the "Subpoenas"). NHA, NHF, and NHC were served with the virtually identical Subpoenas by separate delivery dated April 26, 2013 and received the Subpoenas on April 29, 2013.

On May 7, 2013, counsel for Respondents indicated Respondents' willingness to withdraw two requests contained in the Subpoenas and limit a third. Northside hereby moves to quash and/or limit the Subpoenas on the grounds that the requests, instructions, and definitions contained therein, even as subsequently modified: (1) are overbroad and unduly burdensome, and (2) seek information

obtainable at no cost or for considerably less cost and burden from (a) public sources, (b) parties to the proceedings (*i.e.*, the FTC), or (c) third parties. The burden and expense of the proposed discovery on Northside, as a non-party, outweigh any marginal benefit of the requested information in the proceedings.

# I. INTRODUCTION AND GENERAL OBJECTIONS

Northside operates three non-profit community hospitals in northern metropolitan Atlanta: (1) 537-bed NHA, (2) 84-bed NHC, and (3) 201-bed NHF. Each of Northside's hospitals is more than 200 miles removed from Respondents' hospitals in Albany, Georgia. Northside is not a party to this proceeding and has no direct interest in its outcome. Northside's hospitals do not serve a similar or overlapping service area or healthcare market as Respondents' hospitals, which are more proximate to Alabama and Florida hospitals than to Northside's hospitals. The service areas of Northside's hospitals are not comparable to Respondents' service area in terms of population, demographics, market competitiveness, or any other factor that could be relevant to the proceedings. The size and scope of services offered by Northside's hospitals differ from Respondents' 400+ bed tertiary facility, Phoebe Putney Memorial Hospital, as well as Respondents' 110-bed facility, Phoebe North f/k/a Palmyra Park Hospital. In these circumstances, the Subpoenas should be quashed or limited. The burden and expense of the proposed discovery on Northside outweighs any marginal relevance it could have in the proceedings. See 16 C.F.R. § 3.31(c)(2)(iii)(a subpoena should be quashed or limited where "the burden and expense of the proposed discovery on . . . a third party outweigh its likely benefit.")

Moreover, Respondents confirmed that they served the same overbroad requests on each and every acute care hospital in Georgia, purportedly to enable their economic expert to compare the quality and financial performance of hospitals statewide. Yet, importantly, to the extent Respondents seek to compare quality or financial metrics of Georgia hospitals, they may easily do so

using publicly available information or information that may be purchased for a nominal fee (and without burdening myriad non-party hospitals). As detailed below, comparative financial information and quality metrics concerning Georgia hospitals, including NHA, NHC, and NHF, are available for free or at nominal cost from public agencies and private organizations, including, without limitation, the Georgia Department of Community Health ("DCH"), the Georgia Hospital Association ("GHA"), the Centers for Medicare and Medicaid Services ("CMS"), and the Joint Commission. This alone is a sufficient ground for the Subpoenas to be quashed or limited. *See* 16 C.F.R. §3.31(c)(2)(i)(the Administrative Law Judge is authorized to quash or limit subpoenas when "the discovery sought from . . . a third party is unreasonably cumulative or duplicative, or is obtainable from some other source that is more convenient, less burdensome, or less expensive.")

Finally, the Subpoenas call for the production of documents by May 21, 2013, a mere 22 days from the date of service. While Respondents' counsel confirmed that this production deadline could be extended to May 28, 2013, the 28-day response time remains unreasonably short for a non-party.

Without limiting the foregoing, Northside makes the following additional general objections to the Subpoenas:

1.

Northside objects to each of the remaining requests (*i.e.*, "Documents To Be Produced") as overly broad and unduly burdensome, particularly given the overbroad "Definitions", and onerous "Instructions" contained in the Subpoenas. Additionally, the requests fail to identify with reasonable specificity the documents or other information to be produced.

2.

Northside objects to the each of the remaining requests as not reasonably calculated to lead to

the discovery of admissible evidence. Respondents failed to demonstrate and cannot show that any marginal or likely benefit of the requested documents to the proceedings before the FTC outweighs the burden and expense of production on Northside, a third party.

3.

Northside objects to the remaining requests to the extent the information sought is obtainable through less burdensome and less expensive public means. Any non-public information sought by the requests would be merely cumulative, and any benefit of such production fails to outweigh the burden on Northside, a third party.

4.

Northside objects to the remaining requests, definitions, and instructions in the Subpoenas to the extent they seek documents and information protected and privileged by the attorney-client privilege or any other applicable privilege, immunity, or confidentiality.

5.

Northside objects to the requests, definitions, and instructions to the extent Respondents seek documents and information that constitute, contain or refer to confidential, sensitive and/or proprietary business or commercial information concerning current operations. As a non-party, Northside was not involved in the drafting or negotiations concerning the existing Protective Order dated April 21, 2011 (the "Protective Order"), and that order does not adequately protect Northside's interests.

6.

Without limiting the generality of preceding objections, Northside reserves its objections to the "Definitions" of "computer files", "documents", "Palmyra" and "You and Your" as overbroad,

unduly burdensome, and unreasonable. However, such definitions are no longer implicated by the remaining requests as modified by Respondents.

7.

Without limiting the generality of preceding objections, Northside objects to the following "Instructions" as overbroad, unduly burdensome, and unreasonable:

- Instruction B unreasonably requires Northside to engage in a voluminous record search both electronic and paper for a five-year period from January 1, 2008 to the present. Respondents provided no justification for this five-year period and its relevance to the underlying proceedings involving a transaction consummated in December 2011. On May 7, 2013, Respondents agreed to limit remaining requests to a three-year period. However, Respondents failed to justify the need for data pre-dating the Transaction.
- Instruction C of the Subpoenas unreasonably requires a "complete search" of all files of not only Northside, but also its affiliates, subsidiaries, predecessors, and its and their representatives, including "accountants, lawyers, or any other persons retained by, consulted by, or working on behalf or under direction of" such entities. Such instruction is contrary to the legal requirement of a reasonable search for responsive information and is overly broad and burdensome, particularly given that production is unlikely to result in evidence relevant to the proceedings before the FTC.
- Instruction E of the Subpoenas suggests that Respondents are seeking the production of medical records and other patient records containing confidential health information protected by state and federal privacy laws, including the Health Insurance Portability and Accountability Act of 1996, 42 U.S.C. §§ 1320d-1329d-8, as amended by the Health Information Technology for Economic and Clinical Health Act, enacted as Title XIII of the American Recovery and Reinvestment Act of 2009, Public Law 111-5 (collectively, "HIPAA"). Such information is not relevant to the proceedings, and the burden of production in compliance with HIPAA and state privacy laws outweighs any marginal benefit to the proceedings.
- Instructions F and G unreasonably seek to impose upon Northside obligations or responsibilities in excess of those required by any applicable law or the rules of procedure.

#### II. SPECIFIC OBJECTIONS

Northside incorporates the general objections and arguments stated above, which are specifically incorporated by reference in each of the following responses and objections, and Northside objects to the requests for production in the Subpoenas as follows:

All documents relating to the Transaction, including but not limited to, all documents sent to or received from the FTC, and all documents relating to communications within the FTC.

On May 7, 2013, Respondents agreed to withdraw this request. Accordingly, no objection or response is required.

2.

### All documents relating to Phoebe or Palmyra.

On May 7, 2013, Respondents agreed to withdraw this request. Accordingly, no objection or response is required.

3.

Since 2006, all audited or other financial statements or materials for Your Hospital prepared for either internal use or presented to third parties, (e.g., the Georgia Department of Community Health, the Georgia Hospital Association, potential investors or lenders, investment banks).

On May 7, 2013, Respondents agreed to limit this request only to available audited financial statements for Northside for the last three years. Northside continues to object to this request even as limited because Respondents seek information readily available from public sources. Northside's audited financial statements for the modified request period were filed with DCH in connection with certificate of need ("CON") applications and may be obtained by Respondents directly from DCH for copying costs alone. For example, Consolidated Audited Financial Statements as of and for the Years Ended September 30, 2012 and 2011 are contained in CON Project No. 2013-10 and available for public inspection and copying.

On May 8, 2013, despite Respondents earlier agreements, Respondents provided GHA with an email suggesting that the scope of this request to hospitals generally was not as limited as originally discussed and that Respondents would continue to seek internal, unaudited "hospital-

level" financial statements. Northside objects to any effort of Respondents to further expand the scope of this request because it seeks information readily available from public sources. For example, DCH maintains an Annual Hospital Financial Survey Database and Annual Hospital Questionnaire database (collectively the "DCH Survey Databases"), which databases contain voluminous financial information relating to NHA, NHF, NHC and other Georgia hospitals for the entire request period, including hospital average charges, payor mix, revenues, expenses, bad debt, contractual adjustments, and indigent and charity care levels. Additional financial information concerning Northside's hospitals is available through other governmental entities such as CMS (e.g., Medicare cost reports), and via private databases available to Respondents, including the Georgia Discharge Data System maintained by the Georgia Hospital Association.

To the extent the request seeks additional non-public financial information – including "other financial statements or materials" prepared "for internal use" – the request is overbroad, unreasonable, and the burden of production outweighs any marginal benefits of such requests. Respondents cannot demonstrate the need for such internal and other financial materials, which largely will be cumulative and duplicative of the publicly available financial information.

4.

All Joint Commission on Accreditation of Healthcare Organizations ("JCAHO") or other periodic reviews performed by any organization that assigned a "quality rating" or "quality-score" to Your Hospital.

Northside objects to this request because it seeks information available from public sources, including free on-line resources, for less expense and without disruption to the business operations of Northside. Quality rating, benchmarks and other metrics for NHA, NHC, NHF and other Georgia

<sup>&</sup>lt;sup>1</sup> To illustrate the types of information available on the DCH Survey Database, copies of Phoebe Putney Memorial Hospital's ("Phoebe's") 2011 Financial Survey and Annual Hospital Questionnaire is attached hereto as <u>Attachment F</u>.

hospitals are reported, for example, by DCH, the Joint Commission, Hospital Compare, CMS, HealthGrades, and HealthInsight. To illustrate, attached at Attachment B is Phoebe Memorial Hospital's ("Phoebe's") "Medicare Hospital Profile" comparing Phoebe's performance against the Georgia and National averages across multiple hospital quality benchmarks. Phoebe's "Hospital Safety Score" is attached at Attachment C. While Phoebe's Joint Commission "Quality Report" is not available on-line, that is not typical as quality rankings for NHA, NHC, and NHF and most other Georgia hospitals are readily available on the Joint Commission's website. HealthInsight's 2012 National Rankings for Hospitals for Georgia is attached at Attachment E. Additional quality information is available through other entities, including the Partnership for Health and Accountability consumer quality and pricing guidelines maintained by GHA.

To the extent the request extends beyond Joint Commission and CMS reports and quality reviews, it is unreasonable, overly broad, and unduly burdensome. Specifically, the request to provide "all" "periodic reviews" "performed by any organization," is sufficiently broad to encompass reports and reviews performed by consultants, contractors, and other private entities engaged by Northside to assist in its continuous performance improvement efforts and ongoing evaluation of operations. This request thus implicates irrelevant, competitively sensitive internal documents and data, and the Protective Order is insufficient to protect such information.

#### III. CONCLUSION

For all of the foregoing reasons, Northside respectfully requests that the Administrative Law Judge quash the Subpoenas *Duces Tecum* served by Respondents' counsel in its entirety. In the alternative, Northside respectfully requests that the Administrative Law Judge: (1) significantly limit

<sup>&</sup>lt;sup>2</sup> To illustrate the types of information available on the Joint Commission website, copies of Grady Memorial Hospital's Quality Report is attached hereto as <u>Attachment D</u>.

the scope of the Subpoenas to specific, identifiable, non-privileged documents readily obtainable from NHA, NHC, and NHF, (*i.e.*, not their affiliates, subsidiaries, representatives, attorneys, accountants, the FTC, publicly available resources, etc.) without the costs or burdens of searching or producing (current or archived) electronic files or patient medical or financial records; (2) require Respondents to pay Northside's expenses, including reasonable attorneys' fees, incurred in responding to the Subpoenas, and (3) extend the deadline for production to a reasonable date certain.

Respectfully submitted this 9th day of May, 2013,

Kathlynn Butler Polvino, Esq.

Counsel for Northside Hospital, Inc.

STATEMENT OF KATHLYNN BUTLER POLVINO PURSUANT TO 16 C.F.R. 3.22 (g)

I am a Partner with McKenna Long & Aldridge, LLP, counsel for non-party Northside

Hospital, Inc. d/b/a Northside Hospital - Atlanta ("NHA"), Northside Hospital - Cherokee ("NHC"),

and Northside Hospital -- Forsyth ("NHF"). (NHA, NHC, and NHF are collectively referred to as

"Northside".) I submit this statement in connection with Northside's Consolidated Motion to Quash

and/or Limit the Subpoenas Duces Tecum (the "Motion"). On April 26, 2013, Respondents Phoebe

Putney Memorial Hospital, Inc., Phoebe Putney Health System, Inc., and Hospital Authority of

Albany-Dougherty County mailed the Subpoenas Duces Tecum to NHA, NHC, and NHF, and the

Subpoenas were received on April 29, 2013. On May 7, 2013, at approximately 2:45 p.m., I

participated in a teleconference facilitated by the Georgia Hospital Association ("GHA") with

representatives of multiple Georgia hospitals and John J. Fedele and Lee Van Voorhis, counsel for

Phoebe Putney Memorial Hospital, Inc. and Phoebe Putney Health System, Inc., in an attempt to

resolve any disputes concerning the Subpoenas that are the subject of this Motion. As of the time

this Motion is filed, the issues in dispute have not been fully resolved.

This 9<sup>th</sup> day of May, 2013.

Kathlynn Butler Polvino, Esq.

McKENNA LONG & ALDRIDGE, LLP 303 Peachtree Street, Suite 5300

Atlanta, Georgia 30308

#### GENERAL INSTRUCTIONS

#### **APPEARANCE**

The delivery of this subpoens to you by any method prescribed by the Commission's Rules of Practice is legal service and may subject you to a penalty imposed by law for failure to comply.

#### MOTION TO LIMIT OR QUASH

The Commission's Rules of Practice require that any motion to limit or quash this subpoena must comply with Commission Rule 3.34(c), 16 C.F.R. § 3.34(c), and in particular must be filed within the earlier of 10 days after service or the time for compliance. The original and ten copies of the petition must be filed before the Administrative Law Judge and with the Secretary of the Commission, accompanied by an affidavit of service of the document upon counsel listed in Item 9, and upon all other parties prescribed by the Rules of Practice.

#### TRAVEL EXPENSES

The Commission's Rules of Practice require that fees and mileage be paid by the party that requested your appearance. You should present your claim to counsel listed in Item 9 for payment. If you are permanently or temporarily living somewhere other than the address on this subpoena and it would require excessive travel for you to appear, you must get prior approval from counsel listed in Item 9.

A copy of the Commission's Rules of Practice is available online at <a href="http://bit.lv/FTCRulesofPractice">http://bit.lv/FTCRulesofPractice</a>. Paper copies are available upon request.

This subpoena does not require approval by OMB under the Paperwork Reduction Act of 1980.

# RESPONDENTS' SUBPOENA DUCES TECUM TO Northside Hospital

Pursuant to the Federal Trade Commission's Rules of Practice, 16 C.F.R. §§ 3.31 and 3.34, and the Scheduling Order entered by Chief Administrative Law Judge Chappell on April 4, 2013, Respondents, Phoebe Putney Health System, Inc., Phoebe Putney Memorial Hospital, Inc., and Hospital Authority of Albany-Dougherty County ("Phoebe") hereby request that Northside Hospital produce the documents set forth below in accordance with the Definitions and Instructions set forth below:

#### **DEFINITIONS**

- A. The term "computer files" includes information stored in, or accessible through, computer or other information retrieval systems. Thus, you should produce documents that exist in machine-readable form, including documents stored in personal computers, portable computers, workstations, minicomputers, mainframes, servers, backup disks and tapes, archive disks and tapes, and other forms of offline storage.
- B. The words "and" and "or" shall be construed conjunctively or disjunctively as necessary to make the request inclusive rather than exclusive.
- C. The term "communication" means any transfer of information, written, oral, or by any other means.

- D. The terms "constitute," "contain," "discuss," "analyze," or "relate to" mean constituting, reflecting, respecting, regarding, concerning, pertaining to, referring to, relating to, stating, describing, recording, noting, embodying, memorializing, containing, mentioning, studying, assessing, analyzing, or discussing.
- E. The term "documents" means all computer files and written, recorded, and graphic materials of every kind in your possession, custody, or control. The term documents includes, without limitation: electronic mail messages; electronic correspondence and drafts of documents; metadata and other bibliographic or historical data describing or relating to documents created, revised, or distributed on computer systems; copies of documents that are not identical duplicates of the originals in that person's files; and copies of documents the originals of which are not in your possession, custody, or control.
- F. The terms "each," "any," and "all" mean "each and every."
- G. The term "hospital" means a health care facility providing care through specialized staff and equipment on either an in-patient or out-patient basis.
- H. The term "including" shall mean "including without limitation."
- I. The term "Palmyra" means HCA/Palmyra, Palmyra Medical Center, and Palmyra Park
  Hospital doing business as Palmyra Medical Center and its domestic and foreign parents,
  predecessors, divisions, subsidiaries, affiliates, partnerships and joint ventures, and all
  directors, officers, employees, agents, and representatives of the foregoing.
- J. The term "person" or "persons" means natural persons, groups of natural persons acting as individuals, groups of natural persons acting in a collegial capacity (e.g., as a committee, board, panel, etc.), associations, representative bodies, government bodies, agencies, or any other commercial entity, incorporated business, social or government entity.
- K. The term "Phoebe" means Phoebe Putney Health System, Inc. and Phoebe Putney Memorial Hospital, Inc. and Phoebe Health Partners.
- L. The term "relating to" means in whole or in part constituting, containing, concerning, discussing, referring, describing, analyzing, identifying, or stating.
- M. The term "Transaction" means the Hospital Authority of Albany-Dougherty County's acquisition of Palmyra Park Hospital, which was consummated in December 2011.
- N. The term "You" and "Your" mean Northside Hospital and all of its subsidiaries, affiliates or predecessors.
- O. Unless otherwise defined, all words and phrases used in this First Request for the Production of Documents shall be accorded their usual meaning as defined by Webster's New Universal Unabridged Dictionary, Fully Revised and Updated (2003).

#### INSTRUCTIONS

- A. All documents shall be produced by May 21, 2013.
- B. All references to year refer to calendar year. Unless otherwise specified, each of the specifications calls for documents and/or information for each of the years from January 1, 2008 to the present.
- C. Unless modified by agreement with Respondents, this Subpoena requires a complete search of all Your files. You shall produce all responsive documents, wherever located, that are in the actual or constructive possession, custody, or control of Your Hospital and its representatives, attorneys, and other agents, including, but not limited to, consultants, accountants, lawyers, or any other person retained by, consulted by, or working on behalf or under the direction of You.
- D. This subpoena is governed by the terms of the attached Protective Order Governing Discovery Material issued on April 21, 2011.
- E. To protect patient privacy, You shall mask any Sensitive Personally Identifiable Information ("PII") or Sensitive Health Information ("SHI"). For purposes of this Subpoena, PII means an individual's Social Security Number alone; or an individual's name or address or phone number in combination with one or more of the following: date of birth, Social Security Number, driver's license number or other state identification number or a foreign country equivalent, passport number, financial account numbers, credit or debit card numbers. For purposes of this Subpoena, SHI includes medical records or other individually identifiable health information. Where required by a particular request, You shall substitute for the masked information a unique patient identifier that is different from that for other patients and the same as that for different admissions, discharges, or other treatment episodes for the same patient. Otherwise, You shall redact the PII or SHI but is not required to replace it with an alternate identifier.
- F. Forms of Production: Your Hospital shall submit documents as instructed below absent written consent signed by Respondents.
  - (1) Documents stored in electronic or hard copy format in the ordinary course of business shall be submitted in electronic format provided that such copies are true, correct, and complete copies of the original documents:
    - (a) Submit Microsoft Access, Excel, and PowerPoint in native format with extracted text and metadata;
    - (b) Submit all other documents other than those identified in subpart (1)(a) in image format with extracted text and metadata; and
    - (c) Submit all hard copy documents in image format accompanied by OCR.
  - (2) For each document submitted in electronic format, include the following metadata fields and information:

- (a) For documents stored in electronic format other than email: beginning Bates or document identification number, ending Bates or document identification number, page count, custodian, creation date and time, modification date and time, last accessed date and time, size, location or path file name, and MD5 or SHA Hash value;
- (b) For emails: beginning Bates or document identification number, ending Bates or document identification number, page count, custodian, to, from, CC, BCC, subject, date and time sent, Outlook Message ID (if applicable), child records (the beginning Bates or document identification number of attachments delimited by a semicolon);
- (c) For email attachments: beginning Bates or document identification number, ending Bates or document identification number, page count, custodian, creation date and time, modification date and time, last accessed date and time, size, location or path file name, parent record (beginning Bates or document identification number of parent email), and MD5 or SHA Hash value; and
- (d) For hard copy documents: beginning Bates or document identification number, ending Bates or document identification number, page count, and custodian.
- (3) Submit electronic files and images as follows:
  - (a) For productions over 10 gigabytes, use SATA, IDE, and EIDE hard disk drives, formatted in Microsoft Windows-compatible, uncompressed data in USB 2.0 external enclosure;
  - (b) For productions under 10 gigabytes, CD-R CD-ROM and DVD-ROM for Windows-compatible personal computers, USB 2.0 Flash Drives are also acceptable storage formats; and
  - (c) All documents produced in electronic format shall be scanned for and free of viruses.
- (4) All documents responsive to this request, regardless of format or form and regardless of whether submitted in hard copy or electronic format:
  - (a) Shall be produced in complete form, un-redacted unless privileged, and in the order in which they appear in Your Hospital's files and shall not be shuffled or otherwise rearranged;
  - (b) Shall be produced in color where necessary to interpret the document (if the coloring of any document communicates any substantive information, or if black-and-white photocopying or conversion to TIFF format of any document (e.g., a chart or graph), makes any substantive information

- contained in the document unintelligible, Your Hospital must submit the original document, a like-colored photocopy, or a JPEG format image);
- (c) If written in a language other than English, shall be translated into English, with the English translation attached to the foreign language document;
- (d) Shall be marked on each page with corporate identification and consecutive document control numbers; and
- (e) Shall be accompanied by an index that identifies: (i) the name of each person from whom responsive documents are submitted; and (ii) the corresponding consecutive document control number(s) used to identify that person's documents, and if submitted in paper form, the box number containing such documents. If the index exists as a computer file(s), provide the index both as a printed hard copy and in machine-readable form.
- G. If you object to responding fully to any of the below requests for documents based on a claim of privilege, You shall provide pursuant to 16 C.F.R. § 3.38A, for each such request, a schedule containing the following information: (a) the date of all responsive documents, (b) the sender of the document, (c) the addressee, (d) the number of pages, (e) the subject matter, (f) the basis on which the privilege is claimed, (g) the names of all persons to whom copies of any part of the document were furnished, together with an identification of their employer and their job titles, (h) the present location of the document and all copies thereof, and (i) each person who has ever had possession, custody, or control of the documents.
- H. If documents responsive to a particular specification no longer exist for reasons other than the ordinary course of business but Your Hospital has reason to believe have been in existence, state the circumstances under which they were lost or destroyed, describe the documents to the fullest extent possible, state the specification(s) to which they are responsive, and identify persons having knowledge of the content of such documents.
- I. Any questions you have relating to the scope or meaning of anything in this request or suggestions for possible modifications thereto should be directed to John Fedele at (202) 835-6144. The response to the request shall be addressed to the attention of John Fedele, Baker & McKenzie LLP, 815 Connecticut Ave. NW, Washington, D.C. 20006, and delivered between 8:30 a.m. and 5:00 p.m. on any business day to Baker & McKenzie.

#### DOCUMENTS TO BE PRODUCED

- 1. All documents relating to the Transaction, including but not limited to, all documents sent to or received from the FTC, and all documents relating to communications with the FTC.
- 2. All documents relating to Phoebe or Palmyra.
- 3. Since 2006, all audited or other financial statements or materials for Your Hospital prepared for either internal use or presented to third parties, (e.g., the Georgia Department of Community Health, the Georgia Hospital Association, potential investors or lenders, investment banks).
- 4. All Joint Commission on Accreditation of Healthcare Organizations ("JCAHO") or other periodic reviews performed by any organization that assigned a "quality rating" or "quality-score" to Your Hospital.

#### **CERTIFICATION**

Pursuant to 28 U.S.C. § 1746, I hereby certify under penalty of perjury that this response to the Subpoena *Duces Tecum* has been prepared by me or under my personal supervision from the records of Northside Hospital and is complete and correct to the best of my knowledge and belief.

Where copies rather than original documents have been submitted, the copies are true, correct, and complete copies of the original documents. If Respondents use such copies in any court or administrative proceeding, Northside Hospital will not object based upon Respondents not offering the original document.

#### PROTECTIVE ORDER GOVERNING DISCOVERY MATERIAL

Commission Rule 3.31(d) states: "In order to protect the parties and third parties against improper use and disclosure of confidential information, the Administrative Law Judge shall issue a protective order as set forth in the appendix to this section." 16 C.F.R. § 3.31(d). Pursuant to Commission Rule 3.31(d), the protective order set forth in the appendix to that section is attached verbatim as Attachment A and is hereby issued.

ORDERED:

D. Michael Chappell

Chief Administrative Law Judge

Date: April 21, 2011

#### ATTACHMENT A

For the purpose of protecting the interests of the parties and third parties in the above-captioned matter against improper use and disclosure of confidential information submitted or produced in connection with this matter:

IT IS HEREBY ORDERED THAT this Protective Order Governing Confidential Material ("Protective Order") shall govern the handling of all Discovery Material, as hereafter defined.

- 1. As used in this Order, "confidential material" shall refer to any document or portion thereof that contains privileged, competitively sensitive information, or sensitive personal information. "Sensitive personal information" shall refer to, but shall not be limited to, an individual's Social Security number, taxpayer identification number, financial account number, credit card or debit card number, driver's license number, state-issued identification number, passport number, date of birth (other than year), and any sensitive health information identifiable by individual, such as an individual's medical records. "Document" shall refer to any discoverable writing, recording, transcript of oral testimony, or electronically stored information in the possession of a party or a third party. "Commission" shall refer to the Federal Trade Commission ("FTC"), or any of its employees, agents, attorneys, and all other persons acting on its behalf, excluding persons retained as consultants or experts for purposes of this proceeding.
- 2. Any document or portion thereof submitted by a respondent or a third party during a Federal Trade Commission investigation or during the course of this proceeding that is entitled to confidentiality under the Federal Trade Commission Act, or any regulation, interpretation, or precedent concerning documents in the possession of the Commission, as well as any information taken from any portion of such document, shall be treated as confidential material for purposes of this Order. The identity of a third party submitting such confidential material shall also be treated as confidential material for the purposes of this Order where the submitter has requested such confidential treatment.
- 3. The parties and any third parties, in complying with informal discovery requests, disclosure requirements, or discovery demands in this proceeding may designate any responsive document or portion thereof as confidential material, including documents obtained by them from third parties pursuant to discovery or as otherwise obtained.
- 4. The parties, in conducting discovery from third parties, shall provide to each third party a copy of this Order so as to inform each such third party of his, her, or its rights herein.
- 5. A designation of confidentiality shall constitute a representation in good faith and after careful determination that the material is not reasonably believed to be already in the public domain and that counsel believes the material so designated constitutes confidential material as defined in Paragraph 1 of this Order.

- 6. Material may be designated as confidential by placing on or affixing to the document containing such material (in such manner as will not interfere with the legibility thereof), or if an entire folder or box of documents is confidential by placing or affixing to that folder or box, the designation "CONFIDENTIAL—FTC Docket No. 9348" or any other appropriate notice that identifies this proceeding, together with an indication of the portion or portions of the document considered to be confidential material. Confidential information contained in electronic documents may also be designated as confidential by placing the designation "CONFIDENTIAL—FTC Docket No. 9348" or any other appropriate notice that identifies this proceeding, on the face of the CD or DVD or other medium on which the document is produced. Masked or otherwise redacted copies of documents may be produced where the portions deleted contain privileged matter, provided that the copy produced shall indicate at the appropriate point that portions have been deleted and the reasons therefor.
- 7. Confidential material shall be disclosed only to: (a) the Administrative Law Judge presiding over this proceeding, personnel assisting the Administrative Law Judge, the Commission and its employees, and personnel retained by the Commission as experts or consultants for this proceeding; (b) judges and other court personnel of any court having jurisdiction over any appellate proceedings involving this matter; (c) outside counsel of record for any respondent, their associated attorneys and other employees of their law firm(s), provided they are not employees of a respondent; (d) anyone retained to assist outside counsel in the preparation or hearing of this proceeding including consultants, provided they are not affiliated in any way with a respondent and have signed an agreement to abide by the terms of the protective order; and (e) any witness or deponent who may have authored or received the information in question.
- 8. Disclosure of confidential material to any person described in Paragraph 7 of this Order shall be only for the purposes of the preparation and hearing of this proceeding, or any appeal therefrom, and for no other purpose whatsoever, provided, however, that the Commission may, subject to taking appropriate steps to preserve the confidentiality of such material, use or disclose confidential material as provided by its Rules of Practice; sections 6(f) and 21 of the Federal Trade Commission Act; or any other legal obligation imposed upon the Commission.
- 9. In the event that any confidential material is contained in any pleading, motion, exhibit or other paper filed or to be filed with the Secretary of the Commission, the Secretary shall be so informed by the Party filing such papers, and such papers shall be filed in camera. To the extent that such material was originally submitted by a third party, the party including the materials in its papers shall immediately notify the submitter of such inclusion. Confidential material contained in the papers shall continue to have in camera treatment until further order of the Administrative Law Judge, provided, however, that such papers may be furnished to persons or entities who may receive confidential material pursuant to Paragraphs 7 or 8. Upon or after filing any paper containing confidential material, the filing party shall file on the public record a duplicate copy of the paper that does not reveal confidential material. Further, if the protection for any such material expires, a party may file on the public record a duplicate copy which also contains the formerly protected material.

- 10. If counsel plans to introduce into evidence at the hearing any document or transcript containing confidential material produced by another party or by a third party, they shall provide advance notice to the other party or third party for purposes of allowing that party to seek an order that the document or transcript be granted in camera treatment. If that party wishes in camera treatment for the document or transcript, the party shall file an appropriate motion with the Administrative Law Judge within 5 days after it receives such notice. Except where such an order is granted, all documents and transcripts shall be part of the public record. Where in camera treatment is granted, a duplicate copy of such document or transcript with the confidential material deleted therefrom may be placed on the public record.
- 11. If any party receives a discovery request in any investigation or in any other proceeding or matter that may require the disclosure of confidential material submitted by another party or third party, the recipient of the discovery request shall promptly notify the submitter of receipt of such request. Unless a shorter time is mandated by an order of a court, such notification shall be in writing and be received by the submitter at least 10 business days before production, and shall include a copy of this Protective Order and a cover letter that will apprise the submitter of its rights hereunder. Nothing herein shall be construed as requiring the recipient of the discovery request or anyone else covered by this Order to challenge or appeal any order requiring production of confidential material, to subject itself to any penalties for non-compliance with any such order, or to seek any relief from the Administrative Law Judge or the Commission. The recipient shall not oppose the submitter's efforts to challenge the disclosure of confidential material. In addition, nothing herein shall limit the applicability of Rule 4.11(e) of the Commission's Rules of Practice, 16 CFR 4.11(e), to discovery requests in another proceeding that are directed to the Commission.
- 12. At the time that any consultant or other person retained to assist counsel in the preparation of this action concludes participation in the action, such person shall return to counsel all copies of documents or portions thereof designated confidential that are in the possession of such person, together with all notes, memoranda or other papers containing confidential information. At the conclusion of this proceeding, including the exhaustion of judicial review, the parties shall return documents obtained in this action to their submitters, provided, however, that the Commission's obligation to return documents shall be governed by the provisions of Rule 4.12 of the Rules of Practice, 16 CFR 4.12.
- 13. The provisions of this Protective Order, insofar as they restrict the communication and use of confidential discovery material, shall, without written permission of the submitter or further order of the Commission, continue to be binding after the conclusion of this proceeding.

# SUBPOENA DUCES TECUM

Provided by the Secretary of the Federal Trade Commission, and Issued Pursuant to Commission Rule 3.34(b), 16 C.F.R. § 3.34(b)(2010)

TONorthside Hospital - Cherokee
 C/O Bob Quattrocchi, President & CEO, Or Person Authorized to Receive Service
 201 Hospital Road
 Canton, GA 30114

2. FROM

# UNITED STATES OF AMERICA FEDERAL TRADE COMMISSION

This subpoena requires you to produce and permit inspection and copying of designated books, documents (as defined in Rule 3.34(b)), or tangible things, at the date and time specified in Item 5, and at the request of Counsel listed in Item 9, in the proceeding described in Item 6.

3. PLACE OF PRODUCTION

Baker & McKenzie LLP 815 Connecticut Avenue, NW Washington, DC 20006 4. MATERIAL WILL BE PRODUCED TO

John J. Fedele, Respondents

5. DATE AND TIME OF PRODUCTION

May 21, 2013 - 5:00p.m. EDT

6. SUBJECT OF PROCEEDING

Phoebe Putney Health System, Inc. - Docket 9348

**GENERAL INSTRUCTIONS** 

#### **APPEARANCE**

The delivery of this subpoena to you by any method prescribed by the Commission's Rules of Practice is legal service and may subject you to a penalty imposed by law for failure to comply.

#### MOTION TO LIMIT OR QUASH

The Commission's Rules of Practice require that any motion to limit or quash this subpoena must comply with Commission Rule 3.34(c), 16 C.F.R. § 3.34(c), and in particular must be filed within the earlier of 10 days after service or the time for compliance. The original and ten copies of the petition must be filed before the Administrative Law Judge and with the Secretary of the Commission, accompanied by an affidavit of service of the document upon counsel listed in Item 9, and upon all other parties prescribed by the Rules of Practice.

#### TRAVEL EXPENSES

The Commission's Rules of Practice require that fees and mileage be paid by the party that requested your appearance. You should present your claim to counsel listed in Item 9 for payment. If you are permanently or temporarily living somewhere other than the address on this subpoena and it would require excessive travel for you to appear, you must get prior approval from counsel listed in Item 9.

A copy of the Commission's Rules of Practice is available online at <a href="http://bit.ly/FTCRulesofPractice">http://bit.ly/FTCRulesofPractice</a>. Paper copies are available upon request.

This subpoena does not require approval by OMB under the Paperwork Reduction Act of 1980.

#### **RETURN OF SERVICE**

I hereby certify that a duplicate original of the within subpoena was duly served: (check the method used)

C in person.

X by registered mail.

C by leaving copy at principal office or place of business, to wit:

on the person named herein on:

(Month, day, and year)

# RESPONDENTS' SUBPOENA DUCES TECUM TO Northside Hospital - Cherokee

Pursuant to the Federal Trade Commission's Rules of Practice, 16 C.F.R. §§ 3.31 and 3.34, and the Scheduling Order entered by Chief Administrative Law Judge Chappell on April 4, 2013, Respondents, Phoebe Putney Health System, Inc., Phoebe Putney Memorial Hospital, Inc., and Hospital Authority of Albany-Dougherty County ("Phoebe") hereby request that Northside Hospital - Cherokee produce the documents set forth below in accordance with the Definitions and Instructions set forth below:

#### **DEFINITIONS**

- A. The term "computer files" includes information stored in, or accessible through, computer or other information retrieval systems. Thus, you should produce documents that exist in machine-readable form, including documents stored in personal computers, portable computers, workstations, minicomputers, mainframes, servers, backup disks and tapes, archive disks and tapes, and other forms of offline storage.
- B. The words "and" and "or" shall be construed conjunctively or disjunctively as necessary to make the request inclusive rather than exclusive.
- C. The term "communication" means any transfer of information, written, oral, or by any other means.

- D. The terms "constitute," "contain," "discuss," "analyze," or "relate to" mean constituting, reflecting, respecting, regarding, concerning, pertaining to, referring to, relating to, stating, describing, recording, noting, embodying, memorializing, containing, mentioning, studying, assessing, analyzing, or discussing.
- E. The term "documents" means all computer files and written, recorded, and graphic materials of every kind in your possession, custody, or control. The term documents includes, without limitation: electronic mail messages; electronic correspondence and drafts of documents; metadata and other bibliographic or historical data describing or relating to documents created, revised, or distributed on computer systems; copies of documents that are not identical duplicates of the originals in that person's files; and copies of documents the originals of which are not in your possession, custody, or control.
- F. The terms "each," "any," and "all" mean "each and every."
- G. The term "hospital" means a health care facility providing care through specialized staff and equipment on either an in-patient or out-patient basis.
- H. The term "including" shall mean "including without limitation."
- I. The term "Palmyra" means HCA/Palmyra, Palmyra Medical Center, and Palmyra Park Hospital doing business as Palmyra Medical Center and its domestic and foreign parents, predecessors, divisions, subsidiaries, affiliates, partnerships and joint ventures, and all directors, officers, employees, agents, and representatives of the foregoing.
- J. The term "person" or "persons" means natural persons, groups of natural persons acting as individuals, groups of natural persons acting in a collegial capacity (e.g., as a committee, board, panel, etc.), associations, representative bodies, government bodies, agencies, or any other commercial entity, incorporated business, social or government entity.
- K. The term "Phoebe" means Phoebe Putney Health System, Inc. and Phoebe Putney Memorial Hospital, Inc. and Phoebe Health Partners.
- L. The term "relating to" means in whole or in part constituting, containing, concerning, discussing, referring, describing, analyzing, identifying, or stating.
- M. The term "Transaction" means the Hospital Authority of Albany-Dougherty County's acquisition of Palmyra Park Hospital, which was consummated in December 2011.
- N. The term "You" and "Your" mean Northside Hospital Cherokee and all of its subsidiaries, affiliates or predecessors.
- O. Unless otherwise defined, all words and phrases used in this First Request for the Production of Documents shall be accorded their usual meaning as defined by Webster's New Universal Unabridged Dictionary, Fully Revised and Updated (2003).

#### **INSTRUCTIONS**

- A. All documents shall be produced by May 21, 2013.
- B. All references to year refer to calendar year. Unless otherwise specified, each of the specifications calls for documents and/or information for each of the years from January 1, 2008 to the present.
- C. Unless modified by agreement with Respondents, this Subpoena requires a complete search of all Your files. You shall produce all responsive documents, wherever located, that are in the actual or constructive possession, custody, or control of Your Hospital and its representatives, attorneys, and other agents, including, but not limited to, consultants, accountants, lawyers, or any other person retained by, consulted by, or working on behalf or under the direction of You.
- D. This subpoena is governed by the terms of the attached Protective Order Governing Discovery Material issued on April 21, 2011.
- E. To protect patient privacy, You shall mask any Sensitive Personally Identifiable Information ("PII") or Sensitive Health Information ("SHI"). For purposes of this Subpoena, PII means an individual's Social Security Number alone; or an individual's name or address or phone number in combination with one or more of the following: date of birth, Social Security Number, driver's license number or other state identification number or a foreign country equivalent, passport number, financial account numbers, credit or debit card numbers. For purposes of this Subpoena, SHI includes medical records or other individually identifiable health information. Where required by a particular request, You shall substitute for the masked information a unique patient identifier that is different from that for other patients and the same as that for different admissions, discharges, or other treatment episodes for the same patient. Otherwise, You shall redact the PII or SHI but is not required to replace it with an alternate identifier.
- F. Forms of Production: Your Hospital shall submit documents as instructed below absent written consent signed by Respondents.
  - (1) Documents stored in electronic or hard copy format in the ordinary course of business shall be submitted in electronic format provided that such copies are true, correct, and complete copies of the original documents:
    - (a) Submit Microsoft Access, Excel, and PowerPoint in native format with extracted text and metadata;
    - (b) Submit all other documents other than those identified in subpart (1)(a) in image format with extracted text and metadata; and
    - (c) Submit all hard copy documents in image format accompanied by OCR.
  - (2) For each document submitted in electronic format, include the following metadata fields and information:

- (a) For documents stored in electronic format other than email: beginning Bates or document identification number, ending Bates or document identification number, page count, custodian, creation date and time, modification date and time, last accessed date and time, size, location or path file name, and MD5 or SHA Hash value;
- (b) For emails: beginning Bates or document identification number, ending Bates or document identification number, page count, custodian, to, from, CC, BCC, subject, date and time sent, Outlook Message ID (if applicable), child records (the beginning Bates or document identification number of attachments delimited by a semicolon);
- (c) For email attachments: beginning Bates or document identification number, ending Bates or document identification number, page count, custodian, creation date and time, modification date and time, last accessed date and time, size, location or path file name, parent record (beginning Bates or document identification number of parent email), and MD5 or SHA Hash value; and
- (d) For hard copy documents: beginning Bates or document identification number, ending Bates or document identification number, page count, and custodian.
- (3) Submit electronic files and images as follows:
  - (a) For productions over 10 gigabytes, use SATA, IDE, and EIDE hard disk drives, formatted in Microsoft Windows-compatible, uncompressed data in USB 2.0 external enclosure;
  - (b) For productions under 10 gigabytes, CD-R CD-ROM and DVD-ROM for Windows-compatible personal computers, USB 2.0 Flash Drives are also acceptable storage formats; and
  - (c) All documents produced in electronic format shall be scanned for and free of viruses.
- (4) All documents responsive to this request, regardless of format or form and regardless of whether submitted in hard copy or electronic format:
  - (a) Shall be produced in complete form, un-redacted unless privileged, and in the order in which they appear in Your Hospital's files and shall not be shuffled or otherwise rearranged;
  - (b) Shall be produced in color where necessary to interpret the document (if the coloring of any document communicates any substantive information, or if black-and-white photocopying or conversion to TIFF format of any document (e.g., a chart or graph), makes any substantive information

- contained in the document unintelligible, Your Hospital must submit the original document, a like-colored photocopy, or a JPEG format image);
- (c) If written in a language other than English, shall be translated into English, with the English translation attached to the foreign language document;
- (d) Shall be marked on each page with corporate identification and consecutive document control numbers; and
- (e) Shall be accompanied by an index that identifies: (i) the name of each person from whom responsive documents are submitted; and (ii) the corresponding consecutive document control number(s) used to identify that person's documents, and if submitted in paper form, the box number containing such documents. If the index exists as a computer file(s), provide the index both as a printed hard copy and in machine-readable form.
- G. If you object to responding fully to any of the below requests for documents based on a claim of privilege, You shall provide pursuant to 16 C.F.R. § 3.38A, for each such request, a schedule containing the following information: (a) the date of all responsive documents, (b) the sender of the document, (c) the addressee, (d) the number of pages, (e) the subject matter, (f) the basis on which the privilege is claimed, (g) the names of all persons to whom copies of any part of the document were furnished, together with an identification of their employer and their job titles, (h) the present location of the document and all copies thereof, and (i) each person who has ever had possession, custody, or control of the documents.
- H. If documents responsive to a particular specification no longer exist for reasons other than the ordinary course of business but Your Hospital has reason to believe have been in existence, state the circumstances under which they were lost or destroyed, describe the documents to the fullest extent possible, state the specification(s) to which they are responsive, and identify persons having knowledge of the content of such documents.
- I. Any questions you have relating to the scope or meaning of anything in this request or suggestions for possible modifications thereto should be directed to John Fedele at (202) 835-6144. The response to the request shall be addressed to the attention of John Fedele, Baker & McKenzie LLP, 815 Connecticut Ave. NW, Washington, D.C. 20006, and delivered between 8:30 a.m. and 5:00 p.m. on any business day to Baker & McKenzie.

#### DOCUMENTS TO BE PRODUCED

- 1. All documents relating to the Transaction, including but not limited to, all documents sent to or received from the FTC, and all documents relating to communications with the FTC.
- 2. All documents relating to Phoebe or Palmyra.
- 3. Since 2006, all audited or other financial statements or materials for Your Hospital prepared for either internal use or presented to third parties, (e.g., the Georgia Department of Community Health, the Georgia Hospital Association, potential investors or lenders, investment banks).
- 4. All Joint Commission on Accreditation of Healthcare Organizations ("JCAHO") or other periodic reviews performed by any organization that assigned a "quality rating" or "quality-score" to Your Hospital.

# **CERTIFICATION**

Pursuant to 28 U.S.C. § 1746, I hereby certify under penalty of perjury that this response to the Subpoena *Duces Tecum* has been prepared by me or under my personal supervision from the records of Northside Hospital - Cherokee and is complete and correct to the best of my knowledge and belief.

Where copies rather than original documents have been submitted, the copies are true, correct, and complete copies of the original documents. If Respondents use such copies in any court or administrative proceeding, Northside Hospital - Cherokee will not object based upon Respondents not offering the original document.

#### PROTECTIVE ORDER GOVERNING DISCOVERY MATERIAL

Commission Rule 3.31(d) states: "In order to protect the parties and third parties against improper use and disclosure of confidential information, the Administrative Law Judge shall issue a protective order as set forth in the appendix to this section." 16 C.F.R. § 3.31(d). Pursuant to Commission Rule 3.31(d), the protective order set forth in the appendix to that section is attached verbatim as Attachment A and is hereby issued.

ORDERED:

D. Michael Chappell
Chief Administrative Law Judge

Date: April 21, 2011

#### ATTACHMENT A

For the purpose of protecting the interests of the parties and third parties in the above-captioned matter against improper use and disclosure of confidential information submitted or produced in connection with this matter:

IT IS HEREBY ORDERED THAT this Protective Order Governing Confidential Material ("Protective Order") shall govern the handling of all Discovery Material, as hereafter defined.

- 1. As used in this Order, "confidential material" shall refer to any document or portion thereof that contains privileged, competitively sensitive information, or sensitive personal information. "Sensitive personal information" shall refer to, but shall not be limited to, an individual's Social Security number, taxpayer identification number, financial account number, credit card or debit card number, driver's license number, state-issued identification number, passport number, date of birth (other than year), and any sensitive health information identifiable by individual, such as an individual's medical records. "Document" shall refer to any discoverable writing, recording, transcript of oral testimony, or electronically stored information in the possession of a party or a third party. "Commission" shall refer to the Federal Trade Commission ("FTC"), or any of its employees, agents, attorneys, and all other persons acting on its behalf, excluding persons retained as consultants or experts for purposes of this proceeding.
- 2. Any document or portion thereof submitted by a respondent or a third party during a Federal Trade Commission investigation or during the course of this proceeding that is entitled to confidentiality under the Federal Trade Commission Act, or any regulation, interpretation, or precedent concerning documents in the possession of the Commission, as well as any information taken from any portion of such document, shall be treated as confidential material for purposes of this Order. The identity of a third party submitting such confidential material shall also be treated as confidential material for the purposes of this Order where the submitter has requested such confidential treatment.
- 3. The parties and any third parties, in complying with informal discovery requests, disclosure requirements, or discovery demands in this proceeding may designate any responsive document or portion thereof as confidential material, including documents obtained by them from third parties pursuant to discovery or as otherwise obtained.
- 4. The parties, in conducting discovery from third parties, shall provide to each third party a copy of this Order so as to inform each such third party of his, her, or its rights herein.
- 5. A designation of confidentiality shall constitute a representation in good faith and after careful determination that the material is not reasonably believed to be already in the public domain and that counsel believes the material so designated constitutes confidential material as defined in Paragraph 1 of this Order.

- 6. Material may be designated as confidential by placing on or affixing to the document containing such material (in such manner as will not interfere with the legibility thereof), or if an entire folder or box of documents is confidential by placing or affixing to that folder or box, the designation "CONFIDENTIAL—FTC Docket No. 9348" or any other appropriate notice that identifies this proceeding, together with an indication of the portion or portions of the document considered to be confidential material. Confidential information contained in electronic documents may also be designated as confidential by placing the designation "CONFIDENTIAL—FTC Docket No. 9348" or any other appropriate notice that identifies this proceeding, on the face of the CD or DVD or other medium on which the document is produced. Masked or otherwise redacted copies of documents may be produced where the portions deleted contain privileged matter, provided that the copy produced shall indicate at the appropriate point that portions have been deleted and the reasons therefor.
- 7. Confidential material shall be disclosed only to: (a) the Administrative Law Judge presiding over this proceeding, personnel assisting the Administrative Law Judge, the Commission and its employees, and personnel retained by the Commission as experts or consultants for this proceeding; (b) judges and other court personnel of any court having jurisdiction over any appellate proceedings involving this matter; (c) outside counsel of record for any respondent, their associated attorneys and other employees of their law firm(s), provided they are not employees of a respondent; (d) anyone retained to assist outside counsel in the preparation or hearing of this proceeding including consultants, provided they are not affiliated in any way with a respondent and have signed an agreement to abide by the terms of the protective order; and (e) any witness or deponent who may have authored or received the information in question.
- 8. Disclosure of confidential material to any person described in Paragraph 7 of this Order shall be only for the purposes of the preparation and hearing of this proceeding, or any appeal therefrom, and for no other purpose whatsoever, provided, however, that the Commission may, subject to taking appropriate steps to preserve the confidentiality of such material, use or disclose confidential material as provided by its Rules of Practice; sections 6(f) and 21 of the Federal Trade Commission Act; or any other legal obligation imposed upon the Commission.
- 9. In the event that any confidential material is contained in any pleading, motion, exhibit or other paper filed or to be filed with the Secretary of the Commission, the Secretary shall be so informed by the Party filing such papers, and such papers shall be filed in camera. To the extent that such material was originally submitted by a third party, the party including the materials in its papers shall immediately notify the submitter of such inclusion. Confidential material contained in the papers shall continue to have in camera treatment until further order of the Administrative Law Judge, provided, however, that such papers may be furnished to persons or entities who may receive confidential material pursuant to Paragraphs 7 or 8. Upon or after filing any paper containing confidential material, the filing party shall file on the public record a duplicate copy of the paper that does not reveal confidential material. Further, if the protection for any such material expires, a party may file on the public record a duplicate copy which also contains the formerly protected material.

- 10. If counsel plans to introduce into evidence at the hearing any document or transcript containing confidential material produced by another party or by a third party, they shall provide advance notice to the other party or third party for purposes of allowing that party to seek an order that the document or transcript be granted *in camera* treatment. If that party wishes *in camera* treatment for the document or transcript, the party shall file an appropriate motion with the Administrative Law Judge within 5 days after it receives such notice. Except where such an order is granted, all documents and transcripts shall be part of the public record. Where *in camera* treatment is granted, a duplicate copy of such document or transcript with the confidential material deleted therefrom may be placed on the public record.
- 11. If any party receives a discovery request in any investigation or in any other proceeding or matter that may require the disclosure of confidential material submitted by another party or third party, the recipient of the discovery request shall promptly notify the submitter of receipt of such request. Unless a shorter time is mandated by an order of a court, such notification shall be in writing and be received by the submitter at least 10 business days before production, and shall include a copy of this Protective Order and a cover letter that will apprise the submitter of its rights hereunder. Nothing herein shall be construed as requiring the recipient of the discovery request or anyone else covered by this Order to challenge or appeal any order requiring production of confidential material, to subject itself to any penalties for non-compliance with any such order, or to seek any relief from the Administrative Law Judge or the Commission. The recipient shall not oppose the submitter's efforts to challenge the disclosure of confidential material. In addition, nothing herein shall limit the applicability of Rule 4.11(e) of the Commission's Rules of Practice, 16 CFR 4.11(e), to discovery requests in another proceeding that are directed to the Commission.
- 12. At the time that any consultant or other person retained to assist counsel in the preparation of this action concludes participation in the action, such person shall return to counsel all copies of documents or portions thereof designated confidential that are in the possession of such person, together with all notes, memoranda or other papers containing confidential information. At the conclusion of this proceeding, including the exhaustion of judicial review, the parties shall return documents obtained in this action to their submitters, provided, however, that the Commission's obligation to return documents shall be governed by the provisions of Rule 4.12 of the Rules of Practice, 16 CFR 4.12.
- 13. The provisions of this Protective Order, insofar as they restrict the communication and use of confidential discovery material, shall, without written permission of the submitter or further order of the Commission, continue to be binding after the conclusion of this proceeding.

# SUBPOENA DUCES TECUM

Provided by the Secretary of the Federal Trade Commission, and Issued Pursuant to Commission Rule 3.34(b), 16 C.F.R. § 3.34(b)(2010)

GENERAL INSTRUCTIONS

#### **APPEARANCE**

The delivery of this subpoena to you by any method prescribed by the Commission's Rules of Practice is legal service and may subject you to a penalty imposed by law for failure to comply.

#### MOTION TO LIMIT OR QUASH

The Commission's Rules of Practice require that any motion to limit or quash this subposna must comply with Commission Rule 3.34(c), 16 C.F.R. § 3.34(c), and in particular must be filed within the earlier of 10 days after service or the time for compliance. The original and ten copies of the petition must be filed before the Administrative Law Judge and with the Secretary of the Commission, accompanied by an affidavit of service of the document upon counsel listed in Item 9, and upon all other parties prescribed by the Rules of Practice.

#### TRAVEL EXPENSES

The Commission's Rules of Practice require that fees and mileage be paid by the party that requested your appearance. You should present your claim to counsel listed in Item 9 for payment. If you are permanently or temporarily living somewhere other than the address on this subpoens and it would require excessive travel for you to appear, you must get prior approval from counsel listed in Item 9.

A copy of the Commission's Rules of Practice is available online at <a href="http://bit.ly/FTCRulesofPractice">http://bit.ly/FTCRulesofPractice</a>. Paper copies are available upon request.

This subpoens does not require approval by OMB under the Paperwork Reduction Act of 1980.

# RESPONDENTS' SUBPOENA DUCES TECUM TO Northside Hospital - Forsyth

Pursuant to the Federal Trade Commission's Rules of Practice, 16 C.F.R. §§ 3.31 and 3.34, and the Scheduling Order entered by Chief Administrative Law Judge Chappell on April 4, 2013, Respondents, Phoebe Putney Health System, Inc., Phoebe Putney Memorial Hospital, Inc., and Hospital Authority of Albany-Dougherty County ("Phoebe") hereby request that Northside Hospital - Forsyth produce the documents set forth below in accordance with the Definitions and Instructions set forth below:

#### **DEFINITIONS**

- A. The term "computer files" includes information stored in, or accessible through, computer or other information retrieval systems. Thus, you should produce documents that exist in machine-readable form, including documents stored in personal computers, portable computers, workstations, minicomputers, mainframes, servers, backup disks and tapes, archive disks and tapes, and other forms of offline storage.
- B. The words "and" and "or" shall be construed conjunctively or disjunctively as necessary to make the request inclusive rather than exclusive.
- C. The term "communication" means any transfer of information, written, oral, or by any other means.

- D. The terms "constitute," "contain," "discuss," "analyze," or "relate to" mean constituting, reflecting, respecting, regarding, concerning, pertaining to, referring to, relating to, stating, describing, recording, noting, embodying, memorializing, containing, mentioning, studying, assessing, analyzing, or discussing.
- E. The term "documents" means all computer files and written, recorded, and graphic materials of every kind in your possession, custody, or control. The term documents includes, without limitation: electronic mail messages; electronic correspondence and drafts of documents; metadata and other bibliographic or historical data describing or relating to documents created, revised, or distributed on computer systems; copies of documents that are not identical duplicates of the originals in that person's files; and copies of documents the originals of which are not in your possession, custody, or control.
- F. The terms "each," "any," and "all" mean "each and every."
- G. The term "hospital" means a health care facility providing care through specialized staff and equipment on either an in-patient or out-patient basis.
- H. The term "including" shall mean "including without limitation."
- I. The term "Palmyra" means HCA/Palmyra, Palmyra Medical Center, and Palmyra Park
  Hospital doing business as Palmyra Medical Center and its domestic and foreign parents,
  predecessors, divisions, subsidiaries, affiliates, partnerships and joint ventures, and all
  directors, officers, employees, agents, and representatives of the foregoing.
- J. The term "person" or "persons" means natural persons, groups of natural persons acting as individuals, groups of natural persons acting in a collegial capacity (e.g., as a committee, board, panel, etc.), associations, representative bodies, government bodies, agencies, or any other commercial entity, incorporated business, social or government entity.
- K. The term "Phoebe" means Phoebe Putney Health System, Inc. and Phoebe Putney Memorial Hospital, Inc. and Phoebe Health Partners.
- L. The term "relating to" means in whole or in part constituting, containing, concerning, discussing, referring, describing, analyzing, identifying, or stating.
- M. The term "Transaction" means the Hospital Authority of Albany-Dougherty County's acquisition of Palmyra Park Hospital, which was consummated in December 2011.
- N. The term "You" and "Your" mean Northside Hospital Forsyth and all of its subsidiaries, affiliates or predecessors.
- O. Unless otherwise defined, all words and phrases used in this First Request for the Production of Documents shall be accorded their usual meaning as defined by Webster's New Universal Unabridged Dictionary, Fully Revised and Updated (2003).

## INSTRUCTIONS

- A. All documents shall be produced by May 21, 2013.
- B. All references to year refer to calendar year. Unless otherwise specified, each of the specifications calls for documents and/or information for each of the years from January 1, 2008 to the present.
- C. Unless modified by agreement with Respondents, this Subpoena requires a complete search of all Your files. You shall produce all responsive documents, wherever located, that are in the actual or constructive possession, custody, or control of Your Hospital and its representatives, attorneys, and other agents, including, but not limited to, consultants, accountants, lawyers, or any other person retained by, consulted by, or working on behalf or under the direction of You.
- D. This subpoena is governed by the terms of the attached Protective Order Governing Discovery Material issued on April 21, 2011.
- E. To protect patient privacy, You shall mask any Sensitive Personally Identifiable Information ("PII") or Sensitive Health Information ("SHI"). For purposes of this Subpoena, PII means an individual's Social Security Number alone; or an individual's name or address or phone number in combination with one or more of the following: date of birth, Social Security Number, driver's license number or other state identification number or a foreign country equivalent, passport number, financial account numbers, credit or debit card numbers. For purposes of this Subpoena, SHI includes medical records or other individually identifiable health information. Where required by a particular request, You shall substitute for the masked information a unique patient identifier that is different from that for other patients and the same as that for different admissions, discharges, or other treatment episodes for the same patient. Otherwise, You shall redact the PII or SHI but is not required to replace it with an alternate identifier.
- F. Forms of Production: Your Hospital shall submit documents as instructed below absent written consent signed by Respondents.
  - (1) Documents stored in electronic or hard copy format in the ordinary course of business shall be submitted in electronic format provided that such copies are true, correct, and complete copies of the original documents:
    - (a) Submit Microsoft Access, Excel, and PowerPoint in native format with extracted text and metadata;
    - (b) Submit all other documents other than those identified in subpart (1)(a) in image format with extracted text and metadata; and
    - (c) Submit all hard copy documents in image format accompanied by OCR.
  - (2) For each document submitted in electronic format, include the following metadata fields and information:

- (a) For documents stored in electronic format other than email: beginning Bates or document identification number, ending Bates or document identification number, page count, custodian, creation date and time, modification date and time, last accessed date and time, size, location or path file name, and MD5 or SHA Hash value;
- (b) For emails: beginning Bates or document identification number, ending Bates or document identification number, page count, custodian, to, from, CC, BCC, subject, date and time sent, Outlook Message ID (if applicable), child records (the beginning Bates or document identification number of attachments delimited by a semicolon);
- (c) For email attachments: beginning Bates or document identification number, ending Bates or document identification number, page count, custodian, creation date and time, modification date and time, last accessed date and time, size, location or path file name, parent record (beginning Bates or document identification number of parent email), and MD5 or SHA Hash value; and
- (d) For hard copy documents: beginning Bates or document identification number, ending Bates or document identification number, page count, and custodian.
- (3) Submit electronic files and images as follows:
  - (a) For productions over 10 gigabytes, use SATA, IDE, and EIDE hard disk drives, formatted in Microsoft Windows-compatible, uncompressed data in USB 2.0 external enclosure:
  - (b) For productions under 10 gigabytes, CD-R CD-ROM and DVD-ROM for Windows-compatible personal computers, USB 2.0 Flash Drives are also acceptable storage formats; and
  - (c) All documents produced in electronic format shall be scanned for and free of viruses.
- (4) All documents responsive to this request, regardless of format or form and regardless of whether submitted in hard copy or electronic format:
  - (a) Shall be produced in complete form, un-redacted unless privileged, and in the order in which they appear in Your Hospital's files and shall not be shuffled or otherwise rearranged;
  - (b) Shall be produced in color where necessary to interpret the document (if the coloring of any document communicates any substantive information, or if black-and-white photocopying or conversion to TIFF format of any document (e.g., a chart or graph), makes any substantive information

- contained in the document unintelligible, Your Hospital must submit the original document, a like-colored photocopy, or a JPEG format image);
- (c) If written in a language other than English, shall be translated into English, with the English translation attached to the foreign language document;
- (d) Shall be marked on each page with corporate identification and consecutive document control numbers; and
- (e) Shall be accompanied by an index that identifies: (i) the name of each person from whom responsive documents are submitted; and (ii) the corresponding consecutive document control number(s) used to identify that person's documents, and if submitted in paper form, the box number containing such documents. If the index exists as a computer file(s), provide the index both as a printed hard copy and in machine-readable form.
- G. If you object to responding fully to any of the below requests for documents based on a claim of privilege, You shall provide pursuant to 16 C.F.R. § 3.38A, for each such request, a schedule containing the following information: (a) the date of all responsive documents, (b) the sender of the document, (c) the addressee, (d) the number of pages, (e) the subject matter, (f) the basis on which the privilege is claimed, (g) the names of all persons to whom copies of any part of the document were furnished, together with an identification of their employer and their job titles, (h) the present location of the document and all copies thereof, and (i) each person who has ever had possession, custody, or control of the documents.
- H. If documents responsive to a particular specification no longer exist for reasons other than the ordinary course of business but Your Hospital has reason to believe have been in existence, state the circumstances under which they were lost or destroyed, describe the documents to the fullest extent possible, state the specification(s) to which they are responsive, and identify persons having knowledge of the content of such documents.
- I. Any questions you have relating to the scope or meaning of anything in this request or suggestions for possible modifications thereto should be directed to John Fedele at (202) 835-6144. The response to the request shall be addressed to the attention of John Fedele, Baker & McKenzie LLP, 815 Connecticut Ave. NW, Washington, D.C. 20006, and delivered between 8:30 a.m. and 5:00 p.m. on any business day to Baker & McKenzie.

# **DOCUMENTS TO BE PRODUCED**

- 1. All documents relating to the Transaction, including but not limited to, all documents sent to or received from the FTC, and all documents relating to communications with the FTC.
- 2. All documents relating to Phoebe or Palmyra.
- 3. Since 2006, all audited or other financial statements or materials for Your Hospital prepared for either internal use or presented to third parties, (e.g., the Georgia Department of Community Health, the Georgia Hospital Association, potential investors or lenders, investment banks).
- 4. All Joint Commission on Accreditation of Healthcare Organizations ("JCAHO") or other periodic reviews performed by any organization that assigned a "quality rating" or "quality-score" to Your Hospital.

# **CERTIFICATION**

Pursuant to 28 U.S.C. § 1746, I hereby certify under penalty of perjury that this response to the Subpocna *Duces Tecum* has been prepared by me or under my personal supervision from the records of Northside Hospital - Forsyth and is complete and correct to the best of my knowledge and belief.

Where copies rather than original documents have been submitted, the copies are true, correct, and complete copies of the original documents. If Respondents use such copies in any court or administrative proceeding, Northside Hospital - Forsyth will not object based upon Respondents not offering the original document.

# PROTECTIVE ORDER GOVERNING DISCOVERY MATERIAL

Commission Rule 3.31(d) states: "In order to protect the parties and third parties against improper use and disclosure of confidential information, the Administrative Law Judge shall issue a protective order as set forth in the appendix to this section." 16 C.F.R. § 3.31(d). Pursuant to Commission Rule 3.31(d), the protective order set forth in the appendix to that section is attached verbatim as Attachment A and is hereby issued.

ORDERED:

D. Michael Chappell
Chief Administrative Law Judge

Date: April 21, 2011

#### ATTACHMENT A

For the purpose of protecting the interests of the parties and third parties in the above-captioned matter against improper use and disclosure of confidential information submitted or produced in connection with this matter:

IT IS HEREBY ORDERED THAT this Protective Order Governing Confidential Material ("Protective Order") shall govern the handling of all Discovery Material, as hereafter defined.

- 1. As used in this Order, "confidential material" shall refer to any document or portion thereof that contains privileged, competitively sensitive information, or sensitive personal information. "Sensitive personal information" shall refer to, but shall not be limited to, an individual's Social Security number, taxpayer identification number, financial account number, credit card or debit card number, driver's license number, state-issued identification number, passport number, date of birth (other than year), and any sensitive health information identifiable by individual, such as an individual's medical records. "Document" shall refer to any discoverable writing, recording, transcript of oral testimony, or electronically stored information in the possession of a party or a third party. "Commission" shall refer to the Federal Trade Commission ("FTC"), or any of its employees, agents, attorneys, and all other persons acting on its behalf, excluding persons retained as consultants or experts for purposes of this proceeding.
- 2. Any document or portion thereof submitted by a respondent or a third party during a Federal Trade Commission investigation or during the course of this proceeding that is entitled to confidentiality under the Federal Trade Commission Act, or any regulation, interpretation, or precedent concerning documents in the possession of the Commission, as well as any information taken from any portion of such document, shall be treated as confidential material for purposes of this Order. The identity of a third party submitting such confidential material shall also be treated as confidential material for the purposes of this Order where the submitter has requested such confidential treatment.
- 3. The parties and any third parties, in complying with informal discovery requests, disclosure requirements, or discovery demands in this proceeding may designate any responsive document or portion thereof as confidential material, including documents obtained by them from third parties pursuant to discovery or as otherwise obtained.
- 4. The parties, in conducting discovery from third parties, shall provide to each third party a copy of this Order so as to inform each such third party of his, her, or its rights herein.
- 5. A designation of confidentiality shall constitute a representation in good faith and after careful determination that the material is not reasonably believed to be already in the public domain and that counsel believes the material so designated constitutes confidential material as defined in Paragraph 1 of this Order.

- 6. Material may be designated as confidential by placing on or affixing to the document containing such material (in such manner as will not interfere with the legibility thereof), or if an entire folder or box of documents is confidential by placing or affixing to that folder or box, the designation "CONFIDENTIAL—FTC Docket No. 9348" or any other appropriate notice that identifies this proceeding, together with an indication of the portion or portions of the document considered to be confidential material. Confidential information contained in electronic documents may also be designated as confidential by placing the designation "CONFIDENTIAL—FTC Docket No. 9348" or any other appropriate notice that identifies this proceeding, on the face of the CD or DVD or other medium on which the document is produced. Masked or otherwise redacted copies of documents may be produced where the portions deleted contain privileged matter, provided that the copy produced shall indicate at the appropriate point that portions have been deleted and the reasons therefor.
- 7. Confidential material shall be disclosed only to: (a) the Administrative Law Judge presiding over this proceeding, personnel assisting the Administrative Law Judge, the Commission and its employees, and personnel retained by the Commission as experts or consultants for this proceeding; (b) judges and other court personnel of any court having jurisdiction over any appellate proceedings involving this matter; (c) outside counsel of record for any respondent, their associated attorneys and other employees of their law firm(s), provided they are not employees of a respondent; (d) anyone retained to assist outside counsel in the preparation or hearing of this proceeding including consultants, provided they are not affiliated in any way with a respondent and have signed an agreement to abide by the terms of the protective order; and (e) any witness or deponent who may have authored or received the information in question.
- 8. Disclosure of confidential material to any person described in Paragraph 7 of this Order shall be only for the purposes of the preparation and hearing of this proceeding, or any appeal therefrom, and for no other purpose whatsoever, provided, however, that the Commission may, subject to taking appropriate steps to preserve the confidentiality of such material, use or disclose confidential material as provided by its Rules of Practice; sections 6(f) and 21 of the Federal Trade Commission Act; or any other legal obligation imposed upon the Commission.
- 9. In the event that any confidential material is contained in any pleading, motion, exhibit or other paper filed or to be filed with the Secretary of the Commission, the Secretary shall be so informed by the Party filing such papers, and such papers shall be filed in camera. To the extent that such material was originally submitted by a third party, the party including the materials in its papers shall immediately notify the submitter of such inclusion. Confidential material contained in the papers shall continue to have in camera treatment until further order of the Administrative Law Judge, provided, however, that such papers may be furnished to persons or entities who may receive confidential material pursuant to Paragraphs 7 or 8. Upon or after filing any paper containing confidential material, the filing party shall file on the public record a duplicate copy of the paper that does not reveal confidential material. Further, if the protection for any such material expires, a party may file on the public record a duplicate copy which also contains the formerly protected material.

- 10. If counsel plans to introduce into evidence at the hearing any document or transcript containing confidential material produced by another party or by a third party, they shall provide advance notice to the other party or third party for purposes of allowing that party to seek an order that the document or transcript be granted in camera treatment. If that party wishes in camera treatment for the document or transcript, the party shall file an appropriate motion with the Administrative Law Judge within 5 days after it receives such notice. Except where such an order is granted, all documents and transcripts shall be part of the public record. Where in camera treatment is granted, a duplicate copy of such document or transcript with the confidential material deleted therefrom may be placed on the public record.
- 11. If any party receives a discovery request in any investigation or in any other proceeding or matter that may require the disclosure of confidential material submitted by another party or third party, the recipient of the discovery request shall promptly notify the submitter of receipt of such request. Unless a shorter time is mandated by an order of a court, such notification shall be in writing and be received by the submitter at least 10 business days before production, and shall include a copy of this Protective Order and a cover letter that will apprise the submitter of its rights hereunder. Nothing herein shall be construed as requiring the recipient of the discovery request or anyone else covered by this Order to challenge or appeal any order requiring production of confidential material, to subject itself to any penalties for non-compliance with any such order, or to seek any relief from the Administrative Law Judge or the Commission. The recipient shall not oppose the submitter's efforts to challenge the disclosure of confidential material. In addition, nothing herein shall limit the applicability of Rule 4.11(e) of the Commission's Rules of Practice, 16 CFR 4.11(e), to discovery requests in another proceeding that are directed to the Commission.
- 12. At the time that any consultant or other person retained to assist counsel in the preparation of this action concludes participation in the action, such person shall return to counsel all copies of documents or portions thereof designated confidential that are in the possession of such person, together with all notes, memoranda or other papers containing confidential information. At the conclusion of this proceeding, including the exhaustion of judicial review, the parties shall return documents obtained in this action to their submitters, provided, however, that the Commission's obligation to return documents shall be governed by the provisions of Rule 4.12 of the Rules of Practice, 16 CFR 4.12.
- 13: The provisions of this Protective Order, insofar as they restrict the communication and use of confidential discovery material, shall, without written permission of the submitter or further order of the Commission, continue to be binding after the conclusion of this proceeding.

#### **Heart Attack Care**

An acute myocardial infarction (AMI), also called a heart attack, happens when one of the heart's arteries becomes blocked and the supply of blood and oxygen to part of the heart muscle is slowed or stopped. When the heart muscle doesn't get the oxygen and nutrients it needs, the affected heart tissue may die. These measures show some of the standards of care provided, if appropriate, for most adults who have had a heart attack.

- More information about timely and effective care measures.

#### **Surgical Care**

Hospitals can reduce the risk of infection after surgery by making sure they provide care that's known to get the best results for most patients. Here are some examples:

- Giving the recommended antibiotics at the right time before surgery
- Stopping the antibiotics within the right timeframe after surgery
- · Maintaining the patient's temperature and blood glucose (sugar) at normal levels
- Removing catheters that are used to drain the bladder in a timely manner after surgery.

Hospitals can also reduce the risk of cardiac problems associated with surgery by:

- Making sure that certain prescription drugs are continued in the time before, during, and just after the surgery. This includes drugs
  used to control heart rhythms and blood pressure.
- Giving drugs that prevent blood clots and using other methods such as special stockings that increase circulation in the legs.
- · More information about timely and effective care measures.
- Why surgical care measures are important.
- Current data collection period.

#### **Emergency Department Care**

Timely and effective care in hospital emergency departments is essential for good patient outcomes. Delays before receiving care in the emergency department can reduce the quality of care and increase risks and discomfort for patients with serious illnesses or injuries. Waiting times at different hospitals can vary widely, depending on the number of patients seen, staffing levels, efficiency, admitting procedures, or the availability of inpatient beds.

The information below shows how quickly the hospitals you selected treat patients who come to the hospital emergency department, compared to the average for all hospitals in the U. S.

- More information about timely and effective care measures.
- Why emergency department care measures are important.
- Current data collection period.

#### **Preventive Care**

Hospitals and other healthcare providers play a crucial role in promoting, providing and educating patients about preventive services and screenings and maintaining the health of their communities. Many diseases are preventable through immunizations, screenings, treatment, and lifestyle changes. The information below shows how well the hospitals you selected are providing preventive services.

- More information about timely and effective care measures.
- · Why preventive care measures are important.
- · Current data collection period.

#### Readmissions, Complications and Deaths

Patients who are admitted to the hospital for treatment of medical problems sometimes get other serious injuries, complications, or conditions, and may even die. Some patients may experience problems soon after they are discharged and need to be admitted to the hospital again. These events can often be prevented if hospitals follow best practices for treating patients.

#### 30-Day Outcomes Readmission and Deaths

30-Day Readmission is when patients who have had a recent hospital stay need to go back into a hospital again within 30 days of their discharge. Below, the rates of readmission for each hospital are compared to the U.S. National Rate. The rates take into account how sick patients were before they were admitted to the hospital.

30-Day Mortality is when patients die within 30 days of their admission to a hospital. Below, the death rates for each hospital are compared to the U.S. National Rate. The rates take into account how sick patients were before they were admitted to the hospital.

- Why 30-day Outcomes, Readmissions and Deaths are important.
- More information about Hospital Readmission and Mortality Measures.
- · Current data collection period.

#### **Serious Complications and Deaths**

This section shows serious complications that patients with Original Medicare experienced during a hospital stay, and how often patients who were admitted with certain conditions died while they were in the hospital. These complications and deaths can often be prevented if hospitals follow procedures based on best practices and scientific evidence.

- Why Serious Complications and Death Measures are Important.
- Current data collection period.

Results for the following 4 measures are suppressed due to a software issue:

- · Death after surgery to repair weakness in the abdominal aorta
- · Deaths after admission for a broken hip
- Deaths for certain conditions
- Breathing failure after surgery (except performance categories)

## **Hospital-Acquired Conditions**

This section shows certain injuries, infections, or other senous conditions that patients with Onginal Medicare got while they were in the hospital. These conditions, also known as "Hospital-Acquired Conditions," are usually very rare. If they ever occur, hospital staff should identify and correct the problems that caused them.

Please note that the numbers shown here do not take into account the different kinds of patients treated at different hospitals. For this reason, they should not be used to compare one hospital to another.

- Why Hospital-Acquired Conditions measures are important.
- Current data collection period.

|   | PHOEBE PUTNEY MEMORIAL HOSPITAL       | U.S. NATIONAL RATE                    |

#### **Healthcare-Associated Infections**

Healthcare-Associated Infections are reported using a Standardized Infection Ratio (SIR). This calculation compares the number of Central Line-Associated Bloodstream Infections (CLABSI) in a hospital intensive care unit or Surgical Site Infections (SSI) from operative procedures performed in a hospital to a national benchmark based on data reported to NHSN from 2006 – 2008. Scores for Catheter-Associated Urinary Tract Infections (CAUTI) are compared to a national benchmark based on data reported to NHSN in 2009. The results are adjusted based on certain factors such as the type and size of a hospital or ICU for CLABSI and CAUTI, and based on certain factors related to the patient and surgery that was conducted for SSI. Each hospital's SIR is shown in the graph view.

- A score's confidence interval that is less than 1 means that the hospital had fewer infections than hospitals of similar type and size.
- A score's confidence interval that includes 1 means that the hospital's infections score was no different than hospitals of similar type and size.
- A score's confidence interval that is more than 1 means that the hospital had more infections than hospitals of similar type and size.
- Why Healthcare-Associated Infections (HAIs) measures are important.
- · Current data collection period.

|  | PHOEBE PUTNEY MEMORIAL HOSPITAL               |
|--|---|
| Central Line-Associated Bloodstream Infections (CLABSI)  Lower numbers are better. A score of zero (0) - meaning no CLABSIs - is best. | No different than the U.S. National Benchmark |

| Catheter-Associated Urinary Tract Infections (CAUTI)  Lower numbers are better. A score of zero (0)  - meaning no CAUTIs - is best.                   | No different than the U.S. National Benchmark |
|---|---|
| Surgical Site Infections from colon surgery (SSI: Colon)  Lower numbers are better. A score of zero (0)  - meaning no SSIs - is best.                 | No different than the U.S. National Benchmark |
| Surgical Site Infections from abdominal hysterectomy (SSI: Hysterectomy)  Lower numbers are better. A score of zero (0)  - meaning no SSIs - is best. | No different than the U.S. National Benchmark |

**Use of Medical Imaging** 

PHOEBE PUTNEY MEMORIAL HOSPITAL

Use of Medical **Imaging** 

#### 417 THIRD AVENUE ALBANY, GA 31703 Use of Medical Imaging (tests like Mammograms, MRIs, and CT scans) (229) 312-4068 These measures give you information about hospitals' use of medical imaging tests for outpatients based on the following: Hospital Type: Acute Care Hospitals · Protecting patients' safety, such as keeping patients' exposure to radiation and Provides Emergency Services: Yes other risks as low as possible. Following up properly when screening tests such as mammograms show a possible Add to my Favorites problem. Avoiding the risk, stress, and cost of doing imaging tests that patients may not Map and Directions need. The information shown here is limited to medical imaging facilities that are part of a hospital or associated with a hospital. These facilities can be inside or near the hospital, or in a different location. This information only includes medical imaging done on outpatients. Medical imaging tests done for patients who have been admitted to the hospital as inpatients aren't included. These measures are based on Medicare claims data. Why the Use of Medical Imaging measures are important. Current data collection period. PHOEBE PUTNEY MEMORIAL HOSPITAL GEORGIA AVERAGE NATIONAL **AVERAGE** Outpatients with low back 33.6% 35.3% 36.8% pain who had an MRI without trying recommended treatments first, such as physical therapy. (If a number is high, it may mean the facility is doing too many unnecessary MRIs for low back pain.) Lower percentages are better Outpatients who had a 8.8% 8.5% 4.8% follow-up mammogram or ultrasound within 45 days after a screening mammogram. (A number that is much lower than 8% may mean there's not enough follow-up. A number much higher than 14% may mean there's too much unnecessary follow-up.) Percentages between 8 percent and 14 percent are better

#### Spending per hospital patient with Medicare

The "Spending per Hospital Patient with Medicare" measure shows whether Medicare spends more, less or about the same per Medicare patient treated in a specific hospital, compared to how much Medicare spends per patient nationally. This measure includes any Medicare Part A and Part B payments made for services provided to a patient during the 3 days prior to the hospital stay, during the stay, and during the 30 days after discharge from the hospital.

This result is a ratio calculated by dividing the amount Medicare spends per patient for an episode of care initiated at this hospital by the median (or middle) amount Medicare spent per patient nationally.

A ratio equal to the national average means that Medicare spends ABOUT THE SAME per patient for an episode of care initiated at this hospital as it does per hospital patient at the average hospital nationally.

A ratio that is more than the national average means that Medicare spends MORE per patient for an episode of care initiated at this hospital than it does per hospital patient at the average hospital nationally.

A ratio that is less than the national average means that Medicare spends LESS per patient for an episode of care initiated at this hospital than it does per hospital patient at the average hospital nationally.

Lower ratios means Medicare spends less per patient.

- More about Spending per Hospital Patient with Medicare.
- Current data collection period.

## Number of Medicare patients treated

This shows the number of Medicare patients with a certain condition (MS-DRG) that a hospital treated during the current data collection period. These data are based on the number of Medicare patients that were discharged with a certain condition. They do not include patients in Medicare Health Plans.

 $^{\prime}$ CC $^{\prime}$  refers to complications or comorbidities.  $^{\prime}$ MCC $^{\prime}$  refers to major complications or comorbidities.

- More information about Number of Medicare Patients Treated.
- Current data collection period.

## PHOEBE PUTNEY MEMORIAL HOSPITAL

417 THIRD AVENUE ALBANY, GA 31703 (229) 312-4068

The Joint Commission only reports measures endorsed by the National Quality Forum.

- This information is part of the Hospital Quality Alliance. This information can also be viewed at www.hospitalcompare.hhs.gov.
- Null value or data not displayed.
- 1 -The measure or measure set was not reported.
- 2 -The measure set does not have an overall result.
- 3 The number is not enough for comparison purposes.
- 4 The measure meets the Privacy Disclosure Threshold rule.
- 5 The organization scored above 90% but was below most other organizations.
- 6 -The measure results are not statistically valid.
- Z -The measure results are based on a sample of patients.
- 8 The number of months with measure data is below the reporting requirement.
- 9 The measure results are temporarily suppressed.
- 10-Test Measure: a measure being evaluated for reliability of the individual data elements or awaiting National Quality Forum Endorsement.
- 11-There were no eligible patients that met the denominator criteria.

The Joint Commission only reports measures endorsed by the National Quality Forum.

- \* This information is part of the Hospital Quality Alliance. This information can also be viewed at <a href="https://www.hospitalcompare.hhs.gov">www.hospitalcompare.hhs.gov</a>.
- --- Null value or data not displayed.
- 1 The measure or measure set was not reported.
- 2 The measure set does not have an overall result.
- 3 -The number is not enough for comparison purposes.
- 4 The measure meets the Privacy Disclosure Threshold rule.
- 5 -The organization scored above 90% but was below most other organizations.
- 6 -The measure results are not statistically valid.
- 7 -The measure results are based on a sample of patients.
- 8 -The number of months with measure data is below the reporting requirement.
- 9 -The measure results are temporarily suppressed.
- 10-Test Measure: a measure being evaluated for reliability of the individual data elements or awaiting National Quality Forum Endorsement.
- 11-There were no eligible patients that met the denominator criteria.

## - Top -

The Joint Commission phains information about accredited/certified organizations not only through direct observations by its employees (TREad more).

- This information is part of the Hospital Quality Alliance. This information can also be viewed at www.hospitalcompare.hhs.gov.
- Null value or data not displayed.
- 1 The measure or measure set was not reported.
- 2 The measure set does not have an overall result.
- 3 The number is not enough for comparison purposes.
- 4 The measure meets the Privacy Disclosure Threshold rule.
- 5 -The organization scored above 90% but was below most other organizations.
- 6 The measure results are not statistically valid.
- Z The measure results are based on a sample of patients.
- 8 The number of months with measure data is below the reporting requirement.
- 9 -The measure results are temporarily suppressed.
- 10-Test Measure: a measure being evaluated for reliability of the individual data elements or awaiting National Quality Forum Endorsement.
- 11-There were no eligible patients that met the denominator criteria.

- ---- Null value or data not displayed.
- 1 -The measure or measure set was not reported.
- 2 The measure set does not have an overall result.
- 3 The number is not enough for comparison purposes.
- 4 The measure meets the Privacy Disclosure Threshold rule.
- 5 The organization scored above 90% but was below most other organizations.
- 6 -The measure results are not statistically valid.
- Z -The measure results are based on a sample of patients.
- 8 The number of months with measure data is below the reporting requirement.
- 9 The measure results are temporarily suppressed.
- 10-Test Measure: a measure being evaluated for reliability of the individual data elements or awaiting National Quality Forum Endorsement.
- 11-There were no eligible patients that met the denominator criteria.

 $<sup>^{1}</sup>$ For all hospitals reporting during  $2^{nd}$  quarter through  $1^{st}$  quarter 2011 (4/1/2011 - 3/31/2012)

Disclaimer: The rankings displayed on this web site are presented as percentiles. A ranking in the 100th percentile does not necessarily mean that hospitals in that percentile achieved perfect rates on all their measures. It indicates that their rates were better than all other hospitals except for those who are also in the 100th percentile. Similarly, a hospital with a rank in the 50th percentile did not achieve an average of 50% on their performance measures. They performed better than 50% of all the hospitals in the country.

For all hospitals reporting during  $2^{\mathrm{nd}}$  quarter through  $1^{\mathrm{st}}$  quarter 2011 (4/1/2011 - 3/31/2012)

Disclaimer: The rankings displayed on this web site are presented as percentiles. A ranking in the 100th percentile does not necessarily mean that hospitals in that percentile achieved perfect rates on all their measures. It indicates that their rates were better than all other hospitals except for those who are also in the 100th percentile. Similarly, a hospital with a rank in the 50th percentile did not achieve an average of 50% on their performance measures. They performed better than 50% of all the hospitals in the country.

<sup>\*</sup>Hospital did not have sufficient case volume to report and was not included in the analysis.

# **Phoebe Putney Memorial Hospital**

HOSP616 Phoebe Putney Memorial Hospital

2011 HFS Survey 1 of 7

|    | of federal poverty level guidelines)?   |
|----|---|
| 5. | income level, expressed as a percentage of the federal poverty guidelines, for a patient to be considered for charity   |
|    | care (e.g., 185%, 200%, 235%, etc.)? 200%   |
| 6. | Did the hospital have an agreement or agreements with any city or county concerning the receipt of government funds for indigent and/or charity care during 2011? |

#### Part E: Indigent And Charity Care

Please indicate the totals for indgent and charity care for the categories provided below. If the hospital used a sliding fee scale for certain charity patients, only the net charges to charity should be reported (i.e., gross patient charges less any payments received from or billed to the patient.) Total Uncompensated I/C Care must balance to totals reported in Part C.

| income level, expressed as a percentage of the federal poverty guidelines, for a patient to be considered for charity care (e.g., 185%, 200%, 235%, etc.)? 200%    |
|--|
| Did the hospital have an agreement or agreements with any city or county concerning the receipt of government funds for indigent and/or charity care during 2011 ? |

#### Part E: Indigent And Charity Care

Please indicate the totals for gross indgent and charity care for the categories provided below. If the hospital used a sliding fee scale for certain charity patients, only the net charges to charity should be reported (i.e., gross patient charges less any payments received from or billed to the patient.)

| 4 Immatiant   |            | Charity Care | Indigent/Charity Care Provided |

## Annual Hospital Financial Survey: Parts G-I

HOSP616 2011 Dougherty

**Phoebe Putney Memorial Hospital** 

#### Part G: Indigent Care Trust Fund Addenda

| 1. | Does your hospital participate, or plan to participate, in the Indigent Care Trust Fund? |  |
|----|--|--|
|    | If yes, you must complete Part G   |  |

2. a. Please report charges and cash receipts for the report period. Note: Charges should include only patient-specific transactions for dates of service during the report period. Cash Receipts should include only patient-specific transactions recorded during the report period, without regard to the date the service was actually provided.

|   | Program | Programs | Residents | Residents |
|---|---------|----------|-----------|-----------|
| 1. Charges: (for services provided during the report period).   | 0       | 0        | 0         | 0         |
| Cash Receipt: (for payments received during the report period). Please include any DSH payment from other state Medicaid Programs. Do not include Georgia ICTF or UPL payments. | 0       | 0        | 0         | 0         |

Georgia

- b. Please report the following data related to Upper Payment Limit (UPL) transactions or Other Rate Adjustments with the Georgia Medicaid Program.
  - 1. Gross Payments to the Hospital for UPL and Other Rate Adjustments
  - 2. Intergovernmental Transfers from the Hospital for UPL and Other Rate Adjustments
  - 3. Net Funds Received for UPL and Other Rate Adjustments

<sup>(</sup>A) Due to specific differences in the presentation of data on the HFS, Bad Debt per Financials may differ from the amount reported on the HFS-proper (Part C).

<sup>(</sup>B) Taxable Net Patient Revenue will equal Net Patient Revenue in Section 1 column 11, plus Other Free Care in Section 1 column 9.

2011 AHQ Survey Data Part G: 2 of 4

Technologists, Dental Assistants,

D.1.(a) Reported OB inpatient days include obstetric, labor and delivery, c-section, ante- and post-partum days, D.2. Multiracial categories include patients whose race/ethnicity is unknown, E.4. Phoebe Putney information systems are unable to capture the type of Emergency Room visit by type of bed.E.5. Phoebe Putney information systems are unable to capture the number of transfers to another institution from the Emergency Department.E.6. Visits reported here include visits provided under the auspices of Phoebe Physician Group.E.10. Includes all patients (i) who registered but left against medical advice; or (ii) who left before being discharged. Some of these patients likely received some care before leaving.F.1. Number of MRI Units: Phoebe Putney operates two MRI units on its main campus and one on its Meredyth Drive campus.F.1. Number of CT Units: Phoebe Putney operates 4 CT units on its main campus and one on its Meredyth Drive campus.F.1. Phoebe Putney has a critical care transport service that uses critical care ambulances for the transports. These ambulances are not part of the county's Emergency Medical System.F.1.b. Respiratory treatments reflect all procedures with attached CPT code.F.2. The breakdown of ventilators reported here is as follows: 31 adult, 12 neonatal and 1 transport.G.3. Phoebe Putney does not capture the race/ethnicity of its medical staff. The number of physicians by race/ethnicity is an estimate based on historical percentages.G.4. Reported hospital-based physicians include both physicians with hospitalbased practices and Phoebe Physician Group-employed physicians.G.4. Some physicians are reported in both the Obstetrics and Gynecology categories. G.4. The number of providers enrolled in Medicaid/PeachCare and/or Public Employee Health Benefits Plan was dereived from hospital records. Any physician whose patient generated a charge where the financial class was Medicaid, State Health Benefit Plan or Board of Regents Health Plan is counted in the report. Surgical Services Addendum B.2.: Multiracial categories include patients whose race/ethnicity is unknown. Perinatal Addendum C.1.: Multiracial categories include patients whose race/ethnicity is unknown.Perinatal Addendum C.3.: Average hospital charge for an uncomplicated delivery is based on charges for MS-DRG 775 (mothers' charges). Perinatal Addendum C.4.: Average charge for a premature delivery excludes outliers. Psychiatric/Substance Abuse Addendum B.1.: Multiracial categories include patients whose race/ethnicity is unknown. Minority Health Addendum Part 3: Although Phoebe does have physicians, nurses, and employed staff who speak languages other than English, Phoebe does not have reliable data responsive to the survey request. Comprehensive Inpatient Physical Rehabilitation Addendum: A.1.: Multiracial categories include patients whose race/ethnicity is unknown.

# **Annual Hospital Questionnaire**

Signature Form

HOSP616 2011 Dougherty

**Phoebe Putney Memorial Hospital** 

Georgia Department of Community Health

### YOU MUST CHECK FOR ERRORS BEFORE COMPLETING THE SIGNATURE SECTION

In order to ensure the Signature Form will accept an authorized signature you must first click the "View Error Messages" button. This button will produce a report detailing any missing data items that are required or balances that do not agree but are required to be in balance. The Signature Form WILL NOT accept an authorized signature until each item on the Data Validation Report is corrected. After correcting errors, please click the "View Error Messages" button again to make sure that all errors have been cleared.

### **Electronic Signature**

Please note that the survey WILL NOT BE ACCEPTED without the authorized signature of the Chief Exective Officer or Executive Director (principal officer) of the facility. The signature can be completed only AFTER all survey data has been finalized. By law, the signatory is attesting under penalty of law that the information is accurate and complete.

I state, certify and attest that to the best of my knowledge upon conducting due diligence to assure the accuracy and completeness of all data, and based upon my affirmative review of the entire completed survey, this completed survey contains no untrue statement, or inaccurate data, nor omits to provide requested or material information or data. I further state, certify and attest that I have reviewed the entire contents of the completed survey with all appropriate staff of the facility. I understand that inaccurate, incomplete or omitted data could lead to sanctions against me or my facility. I further understand that a typed version of my name is being accepted as my original signature pursuant to the Georgia Electronic Records and Signature Act.
