## Frequently Asked Questions

### Why Choose CRI Genetics?

CRI Genetics has a unique approach to genealogical testing. We are an advanced team led by a professional molecular geneticist who has been studying DNA for over 35 years with the help of Nobel Prize winning scientists. At CRI Genetics, we have the education, tools, and skills to provide you the most accurate estimation of your BioGeographical Ancestry.

We combine Genetics with Anthropology to trace the migrations of the human race. When we test your DNA against the samples from around the globe, we can figure out where you fit in the rich history of our species.

Our tests examine 642,824 specific markers across your entire genome. These markers are hand-picked based on the latest breakthroughs and advancements in genetic science. These markers are specially chosen for their relevance to tracing ancestry, so that we can provide you with the most statistically likely estimation of your heritage.

## Frequently Asked Questions

> Why choose CRI Genetics?

CRI Genetics is an advanced team of Geneticists, Anthropologists, and Social Scientists. We are passionate about providing our customers with the most accurate (and interesting!) DNA-based reports.

We use patented DNA analysis algorithms designed by renowned Molecular Geneticist Alexei Fedorov, who was apprentice to Nobel Prize winning scientist Walter Gilbert at Harvard University. Alexei's algorithm uses 642,824 hand-chosen genetic markers.

Simply put, the genetic expertise at CRI Genetics is unmatched anywhere else in the business...

That means that you get fascinating Ancestry reports and useful Health reports that are not just detailed, but are also extraordinarily accurate. We're very confident you will love every step of the process at CRI Genetics.
